

Fall 2019

November 1, 2019

In this issue: Our October meeting featured Submarine history.

And: Congratulating one of our members for his long and faithful service to the nation.

The MOAA Messenger

October Meeting

Keith Post gave our program about the work of the St Marys Submarine Museum to preserve and present history to a larger audience.

Keith provided a visual program about our community's submarine museum he named, "A Year at the Museum."

The St Marys Submarine Museum anchors the center of that City's waterfront. Displaying over 5,000 square feet of exhibit space, the museum serves as an important link between our Naval Submarine Base and the heritage of the "Silent Service." The Museum's Director, Keith Post, is the leader of that effort and we are fortunate to have him in that role. Every day, the museum hosts young people whose eyes are opened to the fascinating history of this interesting part of our military. All MOAA members are encouraged to visit the museum and become a member of the Museum. For more information visit:
